You

Who is your target audience?
What functionality will your product have?

We spend 1 - 1.5 months together,
discussing your project in detail.

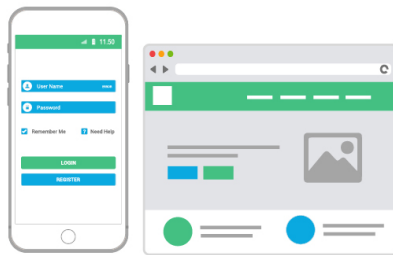

Cider

What is the goal of your product?
What kind of interface design do you want?
And many others...

THEN

DISCOVERY PHASE

1 Cider transforms
your IDEAS into a
clickable prototype.

Visualize your Idea

2 **Estimate and Define Specifications**

For each feature you will get a time **estimate** for development.

We describe each feature as a **User Story**.

Understand your future product user steps.

3 We create **Process Flow** diagrams.

IN THE END YOU GET

- » Clickable prototype
- » User stories
- » Project estimation
- » Process flow diagrams

You are ready to develop your product !
